SECTION I - REMUNERATION POLICY FOR THE YEAR 2023

A. COLLECTIVE BODIES AND PARTIES INVOLVED IN THE PREPARATION, APPROVAL AND POSSIBLE REVIEW OF THE REMUNERATION POLICY

The Remuneration Policy is defined through a process involving the Board of Directors of the Company, the Appointments and Remuneration Committee comprising members of the Board (the “**Appointments and Remuneration Committee**” or the “**Committee**”) and the Ordinary Shareholders’ Meeting of the Company (the “**Shareholders’ Meeting**”).

The bodies involved in terms of remuneration, for the areas for which they are responsible, are the Shareholders’ Meeting, the Board of Directors, the Appointments and Remuneration Committee and the Board of Statutory Auditors.

SHAREHOLDERS’ MEETING

With regard to remuneration, the Shareholders’ Meeting:

- (i) resolves, with a binding vote, with respect to the Remuneration Policy referred to in the first section of the Report pursuant to Art. 123-ter, paragraph 3-bis and paragraph 3-ter, of the Consolidated Finance Law and, with a non-binding vote, on the second section of the Report pursuant to Art. 123-ter, paragraph 6, of the Consolidated Finance Law;
- (ii) determines, at the time of appointment and for the entire duration of the mandate, the remuneration of the members of the Board of Directors and the Board of Statutory Auditors;
- (iii) resolves, upon proposal of the Board of Directors, on any remuneration plans based on financial instruments pursuant to Art. 114-bis of the Consolidated Finance Law.

BOARD OF DIRECTORS

The Board of Directors defines the Policy on the basis of the proposal made by the Appointments and Remuneration Committee, and along with the Committee, monitors its implementation, determining, consistently with the policy, the remuneration of Directors holding specific offices, under the proposal of the Committee and with the input of the Board of Statutory Auditors in accordance with Art. 22 of the Articles of Association. In particular, the Board ensures that the remuneration paid and accrued is consistent with the principles and criteria defined in the Policy, in light of the results achieved and the other circumstances relevant to its implementation.

In addition, the Board resolves on any remuneration plans based on shares or other financial instruments pursuant to Art. 114-bis of the Consolidated Finance Law and submits them for approval to the Shareholders’ Meeting and, upon authorisation from the latter, sees to their implementation.

BOARD OF STATUTORY AUDITORS

With regard to remuneration, the Board of Statutory Auditors expresses the opinions required by the regulations in force with reference, in particular, to the remuneration of Directors vested with special duties pursuant to Art. 2389 of the Italian Civil Code, also verifying the consistency with the remuneration policy adopted by the Company.

APPOINTMENTS AND REMUNERATION COMMITTEE

With regard to remuneration, the Appointments and Remuneration Committee has also been assigned the following tasks:

- a) to make proposals to the Board of Directors on the remuneration policy for Directors and Key Managers;
- b) to assess, at regular intervals, the appropriateness, overall consistency and practical application of the remuneration policy for Directors and Key Managers, making use in this regard of the information provided by the delegated Directors and, in particular, concerning the effective achievement of the performance objectives;
- c) to make proposals or express opinions to the Board of Directors on the remuneration of the Executive Directors and the other Directors holding specific offices, as well as on the specification of performance objectives for the variable component of such remuneration.

B. APPOINTMENTS AND REMUNERATION COMMITTEE AND ANY ADDITIONAL MEASURES INTENDED TO AVOID OR MANAGE CONFLICTS OF INTEREST

By Resolution of 16 March 2016, the Board of Directors of the Company established, with effect from the first day of trading of the shares on the Stock market (i.e., 3 May 2016), the Appointments and Remuneration Committee, approving the related internal regulation (last amended on 7 May 2021 to take into account the provisions of the Corporate Governance Code) – available to the public and on the Company's website <https://corporate.technogym.com/it/governance/management/comitati> and <https://corporate.technogym.com/en/governance/rules-and-procedures> – which governs the composition, duties and operating methods of the Committee.

The Board of Directors of the Company appointed by the Ordinary Shareholders' Meeting of 5 May 2021, proceeded, during the Board meeting of 7 May 2021, to appoint the new members of the internal board committees; therefore, the Appointments and Remuneration Committee in office, at the date of approval of this Policy, is composed of the following three non-executive Directors, two of whom are independent: Vincenzo Giannelli (Independent Director, appointed as Chair), Melissa Ferretti Peretti (Independent Director, appointed as Deputy Chair of the Committee) and Luca Martines (Independent Director). It should be noted that, in its capacity as a Committee established within the Board of Directors, the Appointments and Remuneration Committee has the same duration as the Board itself and, therefore, its expiry date coincides with the date of approval of the Financial Statements for the year that ended 31 December 2023, unless otherwise decided.

In addition to the remuneration duties indicated in the previous paragraph, the Appointments and Remuneration Committee is entrusted with the following duties regarding appointments:

- a) to formulate opinions to the Board of Directors on the size and composition of the same - as well as on the composition of the internal board committees - and make recommendations regarding the professional figures whose presence within the Board of Directors is deemed appropriate, if requested by the Board of Directors;
- b) to express opinions to the Board of Directors regarding the maximum number of offices as Director or Statutory Auditor in other companies listed on regulated markets (including foreign markets), in financial, banking, insurance or large companies that can be considered compatible with the effective performance of the office of Director of the Issuer, taking into account the participation of the Directors in the committees established within the Board of Directors;

- c) to make recommendations to the Board of Directors if difficulties arise in the application of the non-competition obligation specified for the Directors by Art. 2390 of the Civil Code;
- d) pursuant to the regulatory and statutory provisions in force, propose to the Board of Directors candidates for the office of Director in cases of co-optation; and
- e) to carry out the investigation on the preparation (and updating) of a succession plan for the executive directors of the Company, if the Board of Directors decides to adopt this plan and, in this case, assist the Board of Directors in the implementation of such plan;
- f) to examine and evaluate the adequacy of the procedures for the succession of Top Management, if the Board of Directors decides to adopt them;
- g) to conduct the preliminary investigation, formulating opinions and proposals, in order to identify the candidates from which those who will make up the list presented by the outgoing Board will be chosen, if the outgoing Board of Directors, pursuant to regulatory and statutory provisions in force, decides to submit a list of candidates for the renewal of the administrative body; and
- h) to assist the Board in relation to the self-assessment of the Board of Directors and the internal board committees.

The Appointments and Remuneration Committee may access corporate information and departments as necessary to conduct its tasks, and may make use of external consultants, to the extent specified by the Board of Directors.

In order to neutralise any conflicts of interest, in accordance with Recommendation No. 26 of the Corporate Governance Code, no Director takes part in the meetings of the Committee in which proposals relating to their remuneration are formulated, except in the case of proposals concerning the members of the Committees established within the Board of Directors.

C. CONSIDERATION OF THE COMPENSATION AND WORKING CONDITIONS OF THE COMPANY EMPLOYEES IN DETERMINING THE REMUNERATION POLICY

The criterion for defining each economic package (alternative remuneration) (at Technogym) is based on (i) professional specialisation; (ii) organisational role held; and (iii) key responsibilities.

In determining the Remuneration Policy for Key Managers, account was taken, in a harmonious and consistent manner, of employees' salaries and working conditions, avoiding the creation of unjustified imbalances.

Technogym undertakes to offer fixed and variable remuneration, in line with the external market, which reflects the Job Responsibilities of the role held, and enhances the individual skills as well as the professional experience of each employee. The Company periodically monitors the internal fairness of working and remuneration conditions, verifying the consistency of the remuneration packages of similar resources and external competitiveness through comparison with the market.

The Company also works to define a selection strategy that takes into account the principles of diversity and inclusion, ensuring the identification of the best talents in the external and internal markets, in compliance with

the principle of equal opportunities. Technogym aims to guarantee equal opportunities for professional development and growth, according to meritocratic principles that are also designed to overcome the gender pay gap, an issue covered in the Diversity & Inclusion policy, for which in 2023 the Company will define a special action plan on which it will remain focused for the next five years.

D. NAME OF ANY INDEPENDENT EXPERTS WHO CONTRIBUTED TO THE PREPARATION OF THE REMUNERATION POLICY

For the purposes of defining this Policy, the Company did not make use of the services of independent experts.

E. PURPOSES PURSUED THROUGH THE REMUNERATION POLICY, PRINCIPLES UNDERLYING IT, DURATION AND, IN THE EVENT OF REVISION, DESCRIPTION OF ANY CHANGES IN THE REMUNERATION POLICY COMPARED TO THE PREVIOUS FINANCIAL YEAR AND HOW SUCH REVIEW TAKES ACCOUNT OF THE VOTES AND OF THE EVALUATIONS BY THE SHAREHOLDERS DURING THE MEETING OR THEREAFTER

The Company's Remuneration Policy is defined, also in line with the recommendations of the Corporate Governance Code, with the objective of (i) being functional to the pursuit of the Company's sustainable success by promoting the creation of value for Shareholders in the medium-long term, (ii) attracting, retaining and motivating people with the skills and professionalism required by the role covered in the Company and functional to the achievement of the business development objectives and aligning the interests of management with those of the Company and the Shareholders in the medium-long term.

The duration of this Policy is annual.

Substantially adhering to the recommendations of the Code, the Remuneration Policy is based on the following principles:

- a) a balance between the fixed component and the variable component of the remuneration of Key Managers, adequate and consistent with the Company's strategic objectives and risk management policy, also taking into account the characteristics of the business activity and the sector in which it operates, however, providing that the variable portion represents a significant part of the total remuneration; the Company believes that the fixed component is enough to remunerate the performance of the Directors and Key Managers even if, with reference to the latter, the variable component is not paid due to the failure to achieve the performance objectives indicated by the Board;
- b) maximum limits to the payment of the variable part (short and medium-long term) to Key Managers, differentiated according to the role played by the individual within the Company and his/her ability to affect the results of the Company and the Group. In particular, the short-term variable component represented by MBO 2023 (in this regard, refer to Paragraph F.1.1) cannot exceed 60% of the gross annual remuneration, while the medium-term variable component of the single incentive plan (in merit, see Paragraph F.1.2) cannot exceed 25% of the gross annual salary.
As for the long-term variable component represented by the Challenge Plan (in this regard, refer to Paragraph F.1.2), this cannot exceed 7 times the gross annual salary;
- c) the performance objectives relating to both short-term and medium-term objectives are predetermined,

measurable and consistent with the strategic objectives of the Company;

- d) the short-term objectives are aimed at promoting its sustainable success, including, where relevant, also non-financial parameters (such as, for example, the Net Promoter Score, the Employee Satisfaction Index or KPIs relating to the Social ESG pillar).

The variable component of compensation comprises: (i) a portion tied to short-term criteria (Management by Objectives - MBO, based on the achievement of Group and individual annual results, also including the sustainability KPIs per individual area of competence) and (ii) a portion linked to medium-term criteria (LTIP and Challenge Plan).

As regards both short-term and long-term objectives, which will be identified as KPIs, these will be defined in a definitely challenging manner in relation to the market context.

The variable component in its entirety and at the minimum level represents approximately 60% of the gross annual global remuneration. The gross annual salary is the sum of the gross annual salary, plus the minimum access level of the MBO, the annual instalment of the LTIP at the minimum level and the annual accrual of the Challenge Plan at the minimum value (assuming, therefore, that the relative bonus is issued in 2025).

There is a deferral between the time of accrual of the right to, and the payment of, the variable component for both the short-term variable component and the assignment of the shares relating to the medium-term variable component. Payment of any premium: (i) relating to the short-term objectives occurs at least four months after the termination of the skills of the relative performance objectives; (ii) relating to the objectives referred to in the Challenge Plan (as defined below) takes place within four months of the approval of the consolidated financial statements for the year of achievement of the targets referred to in the Plan itself. The assignment of any shares relating to the medium-term objectives takes place at least six months after the end of the duties of the relative performance objectives. In all cases, the Key Managers must be working at the time of disbursement (and not only when the right is due) in order to receive the bonus.

For non-executive and independent Directors, remuneration is aimed at recognising the required effort and does not include performance-related variable components.

With regard to the remuneration policy approved by the Shareholders' Meeting of 4 May 2022, a description of the new medium-term 2023-2025 incentive plan, which will be subjected to the approval of the Shareholders' Meeting called to approve the Financial Statements as at 31 December 2022, was added to Paragraph F.1.2 below. In relation to the existing medium-term incentive plans, the only new element referred to in the 2023-2025 plan (if approved) is the inclusion, among the Performance Objectives, of a KPI represented by the increase in 2025 in the percentage of the less represented gender within management compared to 2022 and the reduction by the end of 2025 of the pay gap between the most represented gender and the least represented gender compared to 2022.

The Company recognises the importance of the indications and evaluations expressed by stakeholders regarding the remuneration policies. Also in order to take into account the indications of proxy advisors, already included in the policy last year, the Company has provided a greater level of detail regarding the calculation criteria to be used, in application of the National Collective Labour Agreement (CCNL), for the determination of the amount of the indemnity for Key Managers in the event of termination of the employment relationship (in this regard, please refer in Paragraph M below), and introduced a cap on the bonus that can be awarded to Key Managers in implementation of the stability plan.

In addition, with regard to the choice of awarding a fixed amount only to the Chair and Chief Executive Officer,

the Company confirms the assessments already carried out in this respect: the provision, with respect to the latter, of incentive mechanisms aimed at retaining and motivating the Chair and Chief Executive Officer was deemed unnecessary as long as these offices are entrusted to Mr. Nerio Alessandri, in light of the fact that the proprietary relationship in place with the Company in itself guarantees the alignment of the latter's interests with the pursuit of the priority objective of the creation of value for all shareholders and stakeholders. Similar evaluations also apply to the office of Executive Deputy Chair, which is currently entrusted to Mr. Pierluigi Alessandri.

F. DESCRIPTION OF THE POLICIES PERTAINING TO FIXED AND VARIABLE REMUNERATION COMPONENTS, WITH PARTICULAR REGARD TO THE INDICATION OF THE RELATIVE WEIGHT WITHIN THE SCOPE OF OVERALL COMPENSATION, AND DISTINGUISHING BETWEEN VARIABLE AND SHORT AND MEDIUM-LONG TERM COMPONENTS

Taking into account the criteria and aims pursued by the Policy, the compensation package comprises the following components:

- i) for Directors and Key Managers - fixed part, which has to remunerate the assigned responsibilities, experience and distinctive competencies held, and must be competitive on the market to assure an adequate retention level;
- ii) for Key Managers, the Non-Competition Agreement (PNC) is present as a fixed component, paid monthly during their collaboration with the Company; the PNC corresponds to a maximum of 25% of their fixed remuneration and covers up to a maximum of 5 years from the end of the collaboration with the Company;
- iii) for Key Managers - annual variable part, which has to ensure a direct connection between remuneration and performance results and is aimed at rewarding the achievement of corporate and individual objectives (MBO - Management by Objectives) and/or one-off bonuses linked to extraordinary results and/or specific non-recurring projects. The aforementioned one-off bonuses may not represent more than 25% of the gross annual remuneration of the individual Key Manager.
- iv) for Key Managers – medium-term variable part, which assures the growth of enterprise value and the attainment of results that are sustainable over time, also beyond those defined each year in the budget, the retention of key resources and the alignment of the management's objectives with those of the Shareholders;
- v) for some positions – among Key Managers – medium/long-term variable part in order to align the interests of the Company with the achievement of certain financial results through the involvement and commitment of top managers, thus aligning the interest of management with that of shareholders', as well as in order to build loyalty and attract key resources for the business;
- vi) for some positions – among the Key Managers – a continuity plan (stability plan) can be defined which rewards longevity in the Company regardless of Company or individual performance indicators through the payment of monetary bonuses at predetermined deadlines which, in any case, cannot exceed 25% of the gross annual salary;
- vii) for Directors and Key Managers – an adequate offer of benefits, in accordance with reference market

practices.

Below is a detailed description of the short, medium and long-term incentive policies implemented and/or expected to be implemented in 2023 by the Company, represented by a variable monetary component (MBO Plan), a variable monetary component medium/long-term (Challenge Plan) and a variable component based on medium-term financial instruments.

F.1.1 MBO PLAN FOR KEY MANAGERS

The annual variable component of remuneration is calculated according to procedures established in the 2023 MBO Plan; this plan is defined on the basis of targets to be achieved during the year and parameters (KPIs) against which the targets will be measured.

The 2023 MBO Plan has a short-term incentivising function and is based on achieving Group and individual annual results. The guidelines and policies for the bonus system are defined by the Chair of the Board of Directors in line with the Company's Development Strategy. The financial indicators the assessment of corporate performance is based on in order to identify the variable compensation allotted to Key Managers are EBIT and the Free Cash Flow ("FCF") of the Group.

In particular, the awarding of the bonus is subject to the achievement of both the Group's minimum EBIT and FCF objectives (Gate). If these minimum objectives are achieved, the bonus awarded to each strategic manager will be determined on the basis of the achievement of further goals, both for the Group (also based on the achievement of certain EBIT and FCF values) and for the individual. Individual objectives may relate to the economic performance of the relevant unit/function, the implementation of specific projects, customer satisfaction, specific sustainability objectives for each area of competence, and, in general, efficiency objectives for the area of activity.

The bonus, if due, following approval of the Financial Statements for the 2023 financial year, and on the basis of the economic and financial indicators determined at the end of 2023, will be paid at the same time as the payment of earnings for April 2024 (if the final balance is not complete, the payment will occur in the subsequent months). In any case, the actual payment of the bonus depends on the continued service of the beneficiary as at 30 April 2024.

The main conditions of the Technogym MBO Plan are set out below:

Recipients	Gate (system activation)	Weight of the Objectives
Key Managers	Group EBIT and FCF	Group KPIs: max. 90% Individual KPIs: min. 10%

If the access deadlines (Gate) are reached, the precise achievement of the Group and Individual KPIs is calculated as described below.

The achievement of 85% of the pre-established targets allows a bonus to be given equal to the access level.

The achievement of 100% of the pre-established targets allows a bonus to be given equal to the minimum reference level.

The achievement of 150% of the pre-established targets allows a bonus to be given equal to the maximum level.

A score in the 85%-100% range and in the 100%-150% range allows a bonus to be given that is linearly proportional to the values relating to the individual Key Manager.

The value of the annual bonus has a lower weight than the gross annual earnings and, in the event of over-performance of the beneficiary, must be no higher than 60% of the earnings.

It should also be noted that in defining the final performance objectives, reference is made to the data in the Financial Statements, not as approved by the competent corporate bodies, but to “adjusted” results, i.e. net of extraordinary components.

F.1.2 MEDIUM-TERM INCENTIVE PLANS

The Company implemented two medium-term incentive plans: the first for the 2021-2023 period and the second for the 2022-2024 period. For details of the plans, please refer to the information documents relating to the plans approved by the Shareholders' Meetings on 5 May 2021 and 4 May 2022.

The Shareholders' Meeting called to approve the financial statements as at 31 December 2022 will decide upon the approval of a new medium-term incentive plan also intended for Key Managers for 2023-2025, based on the attribution of the right to receive shares free of charge if certain performance objectives of the Company are met (the “**2023-2025 Plan**”).

The main characteristics of the 2023-2025 Plan are:

- (i) predetermined performance objectives, identified in the economic and financial performance of the Company, calculated with reference to:
 - the Cumulative Net Profit for the 2023-2025 period, and
 - the Cumulative Free Cash Flow for the 2023-2025 period (i.e. the sum of the Group Free Cash Flow of the three years included in the vesting period);
 - Increase in the percentage of the less represented gender in management in 2025 compared to 2022;
 - Reduction by the end of 2025 of the pay gap between the most represented gender and the least represented gender compared to 2022;
- (ii) a three-year vesting period of the right to obtain the shares deriving from the vesting of the assigned right;
- (iii) non-transferability of the shares restriction (lock-up) for a period of 12 months from the date of assignment of the shares deriving from the Plan, without prejudice to the possibility of transferring the percentage of shares envisaged in the Plan in order to pay taxes on the bonus accrued ⁽¹⁾.

The beneficiaries of the 2023-2025 Plan will be identified by the Board of Directors from among the Key Managers as well as other employees or contractors of the Company or of the Group who hold positions deemed strategic by the Company.

The number of shares allotted by the Board of Directors at the end of the vesting period is determined according to the achievement of the performance objectives on the basis of the gross annual earnings predetermined by the Board of Directors and provided that 80% of the performance objective is achieved. The shares shall be assigned to the beneficiaries, subject to the fulfilment of the conditions set out in the Plan, no later than the 60th day after approval

⁽¹⁾ With reference to the incentive plans already approved by the Shareholders' Meeting in previous years and still in place: (i) the vesting period is always three years and (ii) the restriction on non-transferability of the shares (so-called lock-up) is 12 months for the 2021-2023 Plan, the 2022-2024 Plan and the 2023-2025 Plan (the latter if approved), again without prejudice to the percentage of shares envisaged in the individual plans in order to pay taxes.

of the Group consolidated Financial Statements for the year ending 31 December 2025. At the time of assignment, the Board of Directors will have the right to grant the beneficiary a sum of money equal to the value of the shares to which (s)he would have been entitled according to the criteria indicated in the Plan if, for reasons of a regulatory nature, the assignment of financial instruments to the beneficiary is not allowed.

Since the Plan is aimed at loyalty and retention, termination of the employment relationship for reasons other than those of a “good leaver” shall void all rights that beneficiaries would be entitled to under the plan.

The 2023-2025 Plan envisages a claw-back clause pursuant to which, if within the 24 months following the date of assignment of the Shares, it is ascertained that the achievement of the Performance Objectives was determined on the basis of data that proved to be incorrect, or if it is ascertained that the benefit was not due, the sum corresponding to the value of the shares at the time of their assignment must be returned, in a manner that neutralises any negative financial effects for the beneficiary in any case.

The variable remuneration component for the beneficiaries of the plan, at the end of the three-year cycle, cannot exceed 65% of the annual gross remuneration of the year of assignment of the Shares of the individual beneficiary, net of the capital gains (capital gains given by the difference in the sales price and the assignment price of the shares).

It should also be noted that in defining the final performance objectives, reference is made to the data in the Financial Statements, not as approved by the competent corporate bodies, but to “adjusted” results, i.e. net of extraordinary components.

E.1.3 THE CHALLENGE PLAN FOR KEY MANAGERS

Some of the Key Managers will be given the right to participate in the long-term monetary incentive plan called “Challenge” (the “**Challenge Plan**”) already envisaged in the 2022 Remuneration Plan approved by the Shareholders' Meeting of 4 May 2022, targeting a number of beneficiaries to be identified by the Board of Directors also from among persons other than the Key Managers, on the basis of their ability to affect the achievement of certain long-term results objectives of the Company (the “**Target**”).

The award of the bonus referred to in the Challenge Plan, on a *pro rata temporis* basis, is subject to achievement of the Group's Turnover, EBIT and Free Cash Flow Target, to be achieved in the two-year period 2024-2025, which will be determined by the Board of Directors on the basis of economic-financial forecasts.

If the Targets are reached in 2024, 100% of the relative bonus will be paid to the beneficiaries; if, on the other hand, the Targets are reached in 2025, the relative bonus will be paid to the beneficiaries up to a maximum of 75%. In any case, the premium cannot exceed 7 times the Gross Annual Salary (RAL) of the beneficiary concerned.

The bonus contingent on the achievement of the Targets will be paid within 12 (twelve) months of the approval of the consolidated Financial Statements for the year of achievement of the Targets themselves.

Since the Plan is aimed at loyalty and retention, the termination of the employment relationship for reasons connected to the circumstances that will be determined by the Board of Directors, determines the forfeiture of the beneficiaries of all rights due to them under the Challenge Plan.

The Challenge Plan provides for a claw back clause under which, if within the next 24 months from the date of awarding the bonus, it is ascertained that the achievement of the Targets has been determined on the basis of data that have proved to be incorrect or it is ascertained that if the bonus is not due, the sum corresponding

to the bonus must be returned.
